

Flood Events

Materials

- Flood Events Activity Sheets
- Crayons or markers

Instructions

Print one Flood Events Activity Sheet for each student. Have students complete the sheet by putting each picture in order. Read the verses in each box and check the answers. Then have students color the pictures.

Suggested Discussion

The account of the worldwide flood is true history! The Bible tells us exactly how it all happened. We have to remember what the Bible says when we see things about the ark in books, on TV, or on the Internet that don't seem right. We can trust God's Word.
