## Learn the Word

It wouldn't make any sense for Noah to build the Ark, then just stand outside. He had to go in through the door to be saved from the Flood.

Can you explain what that has to do with our memory verse?

## John 10:9

I am the door. If anyone enters by me, he will be saved and will go in and out and find pasture.

### **What You Heard** *In the Word*

- Many arks we see are NOT what is described in the Bible. The silly-looking arks would never have survived a worldwide Flood.
- God sent all the different kinds of animals to the Ark—two each and seven of some, including the dinosaur kinds.

### **OutWord** *For Family Discussion*

Suppose your friend tells you that there is no way dinosaurs were on the Ark. They lived millions of years ago, long before the Bible was even written! **What will you tell her?**

*It does seem like we are always hearing about dinosaurs and millions of years, and that they could not have been on the Ark. But I believe the Bible, which says ALL the land animals were created on Day Six of Creation Week just about 6,000 years ago. Since dinosaurs are land animals, they couldn't have lived millions of years ago. The Bible also says that God brought two of EVERY kind of animal to the Ark before the Flood. And EVERY means EVERY, right? So, the dinosaur kinds had to be included.*

## Justin & Jessie

“Eww! She slobbered on me!” said Jessie.  
 “Hey! Her tongue is purple!” Justin noticed as it came toward Jessie’s hand again.  
 “Ick!” Jessie dropped her lettuce and everyone laughed.

Justin and Jessie have great fun at the zoo feeding giraffes and looking at tigers, bears, and zebras. But they wonder how Noah could fit all the animals on the Ark. Find out what they learn in “Giraffe Tongues & Salad.”
